GRADUATION PROJECT

Collaborate with a team to create an online platform that meets the needs of the market and lifestyle, and connects photographers and clients in Amman who are looking for photography services. The platform was developed using HTML, CSS, JS, PHP, SQL and jQuery.

• Enable photographers to display their work on the platform and generate reports on their earnings.

• Simplify the search process for users to find photographers that meet their needs, add reviews and communicate with them.

• Enable the supervisor to manage photographers and users' operations, generate reports on the number of bookings and resolve issues.

VOLUNTEER

1. Volunteering in the "Eye on the Future" guidance initiative of the "Bader wa Sahm" Foundation.

2. Volunteering in the "Qaleb Studio for Digital Content Development" on the "Nahno" platform.

3. Volunteering in the guidance initiative of the "Al-Awael" website.

4. Volunteering with the "Mujaddidun Charitable Society".

5. Volunteering in various activities of the Crown Prince Foundation and the National "Nahno" platform.
